The 45-, 60- and 90-minute plans are untested classroom estimates, not measured play times. Educator testing and observed timing are needed before claiming classroom validation. Activities need not be timed.

For adults and university beginners. No prior historical, source-analysis or technical knowledge is required.

These lessons discuss historical conflict, displacement, missing people, surrender and civilian-harm documentation without graphic descriptions or images. No personal disclosure is required. Linked articles may contain graphic material and are not assigned readings.

Atrocity notice

Studying or commanding a side does not endorse its conduct. Drone Front never lets players target civilians, hospitals, schools or places of worship. Civilian harm from simulated strikes is counted and shown in the debrief, including nonzero harm. Civilian massacres are never playable operations. Designated terrorist forces and Wagner remain computer controlled; Gaza war events remain excluded from play.
