PROJECTOR SLIDE

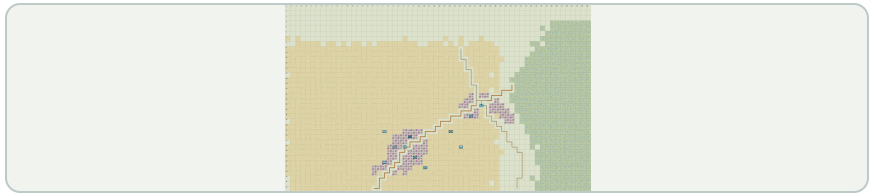
The Baga bases assault

Baga and Doron Baga, Kukawa Local Government Area, Borno State, Nigeria · 26 to 27 December 2018

Learning objectives

- Explain the loss of both bases and assess the assumed task of preserving limited military functions through withdrawal.
- Distinguish documented drone operations from local simulation assumptions.
- Assess the relationship between observation, military decisions and civilian risk.

Scenario illustration · AI generated



Student map · own side only · Simulation situation map · reconstructed terrain and estimated deployments; not verified historical positions.

Run and debrief

4 minutes 0 seconds at 1×. Preserve at least one of two portable military coordination or supply functions through withdrawal. Both bases were overrun historically. A surviving function here does not mean an intact base or retained base control.

Which result differed from history, and what evidence or model assumption explains it?

Atrocity notice · 2015-04-14 · Amnesty International: Boko Haram's reign of terror

These reports describe the wider conflict. They do not establish that every crime occurred in this modeled battle.

Study is not endorsement. Never target civilians, hospitals, schools or places of worship. Report civilian harm. Terrorist forces and Wagner: computer controlled. Gaza events and civilian massacres: excluded.
